Description

BWise has prioritized quality above all else. We do this to ensure the trailers that leave our facility are the best trailers on the road. From our multi-point quality checklist to our top-notch parts and materials management, BWise has every detail covered.

We house all parts and materials indoors to limit exposure to the elements and ensure clean material. Each one of our trailers is then built with a detailed drawing to certify maximum precision and quality. From there, our refined internal tools and processes maintain strict quality controls over every trailer that rolls off the line.
