Description

Quality Trailers car hauler trailers are manufactured to meet the demands of the car enthusiast hobby or professional user. They offer three different grades of car trailers in both wood and diamond floor versions. Economy models are manufactured with a cost conscience buyer in mind and are built with a 4" channel frame and 4" channel wrap-a-round tongue. General Duty models upgrade to a 5" channel frame with additional feature upgrades. Professional Grade models are fully equipped with all of the best features. This includes an all-tubing main frame and wrap-a-round tongue on the diamond floor model. Sealed wiring harness, radial tires, and LED lighting are included on either style. Treated decking and stake pockets with rub rail are included on the wood floor Professional Grade car trailer. An automotive grade finish ensures a quality trailer that stays behind you for many years to come.
