Description

The Fender Equipment Trailer line is built with a heavy duty all-channel frame. The floor is even with the top of the frame. Two loading systems are available. The traditional equipment trailer model features a dovetail and swing-up loading ramps for easy and safe loading of your equipment. We also offer a tilt bed equipment trailer with a fixed front section. This popular model eliminates the need for ramps to load your equipment.

Our General Duty Equipment Trailers are available in 10,000 lb., 12,000 lb., and 14,000 lb. GVWR's. These trailers are all built with a 6 in. channel main frame and 3 in. crossmembers on 24 in. centers. The 12,000 lb. models are built with a heavier duty 6 in. channel tongue and have 235/80 R16 radial tires. 5 ft. swing up ramps, 2 5/16 in. adjustable coupler, 7,000 lb. drop foot jack, heavy duty diamond plate fenders, stakepockets, rubber mounted lighting, and skip DOT reflective tape are standard features on all General Duty Equipment Trailers.

- Features:
- Heavy Duty frame with 24 cross member spacing, 2 ft. dove tail, radial tires, rubber mounted sealed beam lighting in enclosed boxes with conventional wiring with gel filled connectors
- Specifications:
